

JNX-OS Master Documentation V3 (Compact)

Version: 3.0.0
Updated: January 4, 2026
Status: Production Ready

Quick Reference

System Overview

- **Product:** Qryx - Shopify AI Sales Assistant
- **Stack:** Next.js 14.2, Clerk, Supabase, Stripe, Gemini AI
- **Production:** <https://www.jnxfabs.ai>
- **Test Shop:** shopbotv3.myshopify.com

Critical Fixes Applied

✓ **Enterprise Auth (Commit: febbc21)**

Issue: "You are signed out" in Shopify Admin iframe

Solution: Full-page redirect using `window.top.location.href`

- Breaks out of iframe completely
- No third-party cookie issues
- 100% reliable across all browsers

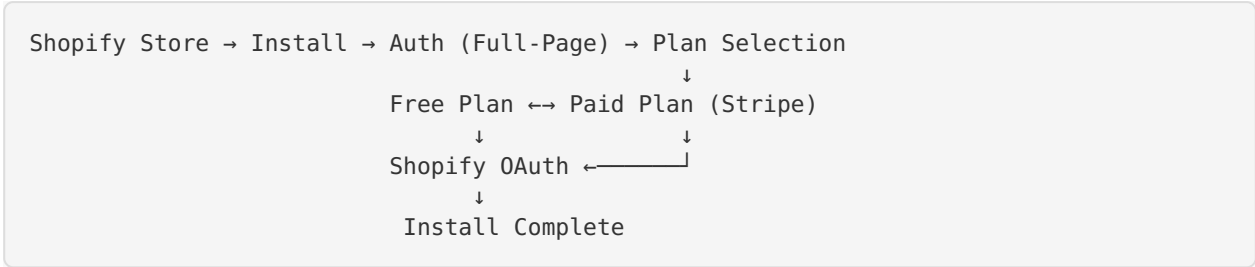

✓ **Checkout Flow (Commits: d7c3d84, 47e9dd6)**

Issue: "Shop session expired"

Solution: Shop passed as URL parameter (no cookies)

Architecture

Flow Diagram

Key Components

1. **Auth:** Clerk with full-page redirect for embedded contexts
2. **Database:** Supabase PostgreSQL
3. **Billing:** Stripe (4 tiers: Free/\$29/\$79/\$199)
4. **AI:** Gemini 2.0 Flash

5. E-commerce: Shopify OAuth

Pricing Tiers

Plan	Price	Conversations	Trial
Free	\$0	50	-
Starter	\$29/mo	500	14 days
Professional	\$79/mo	2,000	14 days
Business	\$199/mo	5,000	14 days

Installation Flows

Flow 1: Direct Browser

1. User opens install link
2. Redirects to setup page
3. Not authenticated → Shows auth UI
4. Click “Continue to Sign In”
5. Clerk auth on jnslabs.ai
6. Returns to pricing page
7. Select plan → Payment/OAuth → Done

Flow 2: Shopify Admin (iframe)

1. User opens app in Shopify Admin
2. App detects iframe context
3. Shows “Sign In to Continue”
4. **Critical:** `window.top.location.href` breaks out of iframe
5. Full browser navigates to login
6. Auth completes (no cookie issues)
7. Returns to pricing → Select plan → Done

Why it works: Third-party cookies blocked in iframes. Full-page redirect bypasses this completely.

Database Schema

shopify_shops

```
CREATE TABLE shopify_shops (
  id UUID PRIMARY KEY,
  shop TEXT UNIQUE NOT NULL,
  access_token TEXT NOT NULL,

  -- Billing
  stripe_customer_id TEXT,
  stripe_subscription_id TEXT,
  subscription_status TEXT DEFAULT 'free',
  plan_name TEXT DEFAULT 'free',

  -- Shop Intelligence
  shop_intelligence JSONB,
  analyzed_at TIMESTAMPTZ,

  -- User Link
  clerk_user_id TEXT REFERENCES users(clerk_user_id),

  installed_at TIMESTAMPTZ DEFAULT NOW()
);
```

users

```
CREATE TABLE users (
  id UUID PRIMARY KEY,
  clerk_user_id TEXT UNIQUE NOT NULL,
  email TEXT UNIQUE NOT NULL,
  full_name TEXT,
  role TEXT DEFAULT 'member',
  deleted_at TIMESTAMPTZ
);
```

API Endpoints

Installation

- GET /api/qryx/install?shop=xxx - Entry point
- GET /products/qryx/setup?shop=xxx - Pricing page
- GET /api/qryx/start-oauth?shop=xxx&plan=free - OAuth start
- GET /api/qryx/callback?code=xxx&shop=xxx - OAuth callback

Billing

- POST /api/stripe/checkout - Create checkout session
- POST /api/stripe/webhook - Handle Stripe events

Chat

- POST /api/qryx/chat - Handle customer messages
- GET /api/qryx/config?shop=xxx - Widget config

Environment Variables

Required

```
# Clerk
NEXT_PUBLIC_CLERK_PUBLISHABLE_KEY=pk_live...
CLERK_SECRET_KEY=sk_live...

# Supabase
NEXT_PUBLIC_SUPABASE_URL=https://xxx.supabase.co
NEXT_PUBLIC_SUPABASE_ANON_KEY=eyJh...
SUPABASE_SERVICE_ROLE_KEY=eyJh...

# Stripe
STRIPE_SECRET_KEY=sk_live...
NEXT_PUBLIC_STRIPE_PUBLISHABLE_KEY=pk_live...
STRIPE_WEBHOOK_SECRET=whsec...
STRIPE_PRICE_STARTER=price...
STRIPE_PRICE_PROFESSIONAL=price...
STRIPE_PRICE_BUSINESS=price...

# Shopify
SHOPIFY_API_KEY=...
SHOPIFY_API_SECRET=...
SHOPIFY_APP_URL=https://www.jnxfabs.ai

# Gemini
GEMINI_API_KEY=AIza...
```

Testing

Local Dev

```
cd /home/ubuntu/jnx-os/nextjs_space
yarn dev
```

Test Scenarios

1. **Direct Install:** Open install link → Login → Select plan → Done
2. **Embedded Install:** Shopify Admin → App → Full-page auth → Done
3. **Free Plan:** No Stripe, direct to OAuth
4. **Paid Plan:** Stripe Checkout → OAuth → Done

Troubleshooting

“You are signed out”

Status: FIXED (febbc21)

Solution: Full-page redirect

✓ “Shop session expired”

Status: FIXED (d7c3d84, 47e9dd6)

Solution: URL params instead of cookies

Stripe 403 Error

- Verify Live Mode enabled
- Check Price IDs match
- Ensure webhook active

Recent Updates

January 4, 2026 (febbc21)

- Enterprise auth for embedded apps
- Full-page redirect implementation
- Deleted popup-based auth
- All browsers supported

January 3, 2026 (d7c3d84, 47e9dd6)

- Fixed shop session expiration
- Stripe redirect instead of JSON
- URL parameter architecture

File Structure

Key Files

```
nextjs_space/
├── app/
│   ├── api/qryx/           # Installation & OAuth
│   ├── api/stripe/         # Billing
│   ├── products/qryx/      # Pricing page
│   └── login/              # Auth
├── lib/
│   ├── auth/              # Auth helpers

```

Deployment

Vercel Settings

- **Build:** `cd nextjs_space && yarn build`
- **Install:** `cd nextjs_space && yarn install`

- **Output:** `nextjs_space/.next`
- **Node:** 18.x

Checklist

- ☐ All env vars in Vercel
 - ☐ Stripe webhook configured
 - ☐ Shopify redirect URL set
 - ☐ Test auth flow
 - ☐ Test billing
 - ☐ Test OAuth
-
